Personal Profile

I would describe myself as a supportive, positive and motivated person with great communication skills that responds positively to communications from others. Looking for a career change within the software engineering aspect. My goal is to learn and become the best I can be within a great company that I can become a key part of. Recently left my role as a mechanical engineer to pursue my passion for software engineering, joining the Northcoders 13 week bootcamp to help craft new skills and open up new opportunities.

Technical Skills

Languages: JavaScript- using Node.js, and browsers as environment
Testing: Test Driven Development(TDD), Jest, Supertest
Back-End: SQL, PSQL, Seeding, Migration
